

FLU LINE SCHEDULE

Flu-Mist nasal vaccine will be available on the following dates/times for all active duty military members, all retired military members, all family members **(with ID Card)**, and all GS civilians and contractors **(with Dependent or Retiree Military ID Card only)**. These vaccinations are **MANDATORY FOR ALL MILITARY PERSONNEL** IAW DoD policy, and are highly encouraged for all others during this flu season. At this time, only those persons aged 5-49 can be vaccinated due to the shortage of injectable vaccine. There are restrictions for receiving the nasal vaccine: persons must be 5-49 who are healthy, not pregnant, have no long-term health problems, are not allergic to eggs, are not currently severely ill and have had no previous reactions to flu vaccine. If we receive more injectable vaccine, we will notify you immediately.
